Experiencing ULTRA LUXURY

[SILVERSEA CRUISES]

With its exceptional fleet of classic and expedition ships, Silversea Cruises offers unforgettable voyages across the globe. The recent additions – the stunning *Silver Moon*, the equally lovely sister ship *Silver Dawn*, and the expedition yacht *Silver Origin* – have enhanced guests' options to travel further and discover authentic beauty worldwide.

Silversea offers only the finest in service and cuisine, and is perfect for those who enjoy the camaraderie of like-minded guests onboard. Sailing to all seven continents and now with six ships in the Classic fleet, Silversea redefines ultra-luxury cruising to exotic destinations all over the world.

In terms of unique dining experiences, the *Silver Moon* and *Silver Dawn* have launched the fantastic and much-lauded culinary arts program, S.A.L.T. (Sea and Land Taste). As the program adapts to various regions and cruising destinations, guests can enjoy an immersive

experience of traveling in a more meaningful way. A hub of culinary activity, the S.A.L.T. Kitchen is the first large-scale regional restaurant on a luxury ship with an ever-changing menu and regionally-inspired wines. The S.A.L.T. Bar carries the same theme and is one of the most beautiful and creative bars at sea – anywhere in the world! The S.A.L.T. Lab invites guests to learn about local and artisanal ingredients as well as techniques through fun

Silver Moon

tastings, demonstrations, and workshops. Onboard lectures from experts in their field are enjoyable and instructive. The tailored and insightful shore excursions take guests to the heart of each port by visiting farms, greenhouses, kitchens, and typical restaurants while engaging with the locals in each activity.

There is another new and spectacular offering from Silversea Cruises which made its impressive debut on the *Silver Dawn*, launched in March 2022. Dubbed OTIVM, "The Original Art of Comfort," this new spa concept is based on ancient Roman culture. Otium was a unique leisure place where the elite class could pursue their preferred activities to nurture their minds or enjoy life's pleasures. And so, it is at OTIVM today.

Silversea believes the art of living well and being well are not mutually exclusive. Guests may choose from the most blissful spa treatments while being pampered with various experiences throughout their cruise. Perhaps some iced Champagne, a creative cocktail concoction, and

tasty chocolate treats after a massage. Or delicious snacks such as truffle popcorn, sustainable caviar and accoutrements, or a foie gras burger delivered to your suite. The bespoke bedding and pillow menu is designed to enhance one's cruise, and there's a special OTIVM robe to don in preparation for your spa time.

Of course, there's more in terms of luxury. You can ask your butler to draw you a bath liberally doused with your choice of aromatic Sicilian Sea Salts. Watch him as he places flickering candles and music in your expansive bathroom, and then simply enjoy your bath as you sip your Wellness water and bite into a delicious macaron.

The hallmarks of a Silversea cruise are smaller ships, most of them carrying no more than 608 guests, and extensive dining options – up to eight choices on such ships as the *Silver Muse*. These include al fresco options, Asian fusion, the exclusive and intimate jewel, La Dame, for the finest in dining, the perennial favourite, La Terrazza, for Italian, and numerous other choices. The accommodations are spacious, including beautifully appointed ocean-view suites, most with verandas, and they offer guests the attentive services of a butler and a stewardess. Champagne, fine wines, and premium liquors are included, as are Wi-Fi and gratuities. Every amenity is at your fingertips, including Bvlgari soaps, an in-suite bar stocked to your personal preference, and assistance available for any array of things.

A new vessel, the *Silver Nova*, will debut in summer 2023 and push the boundaries in sustainable cruising. This ultra-luxury ship, carrying 728 guests, will be the first hybrid luxury cruise vessel. The arrival of *Silver Nova* will ensure that Silversea Cruises is at the forefront of sustainable cruising in the years to come.

Silversea is also known for its exceptional world cruises, which reflect its commitment to stellar destination expertise. Guests may choose to sail on the entire world cruise or opt for several back-to-back segments in areas of particular interest. A rich schedule of bespoke events onboard and Silversea's mantra of seeing the world in the most authentic way will offer guests the most extraordinary and unforgettable experiences. ■

Zodiac cruising among the icebergs, Antarctica

Many of us have our bucket-list destinations decided, perhaps now more than ever. Invariably, they are far-away places, often exotic, some with thrilling landscapes, breathtaking ice floes, and the permanent imprint of a winter's day. Whether you desire to explore a beautiful underwater archipelago, search for orangutans in Borneo, see the famed Kimberley in Australia, or sail to the southern tip of the world in search of penguin colonies, it is highly likely that a beautiful Silversea expedition ship will take you there.

Ultra-luxury cruise line Silversea Cruises has four ships in its Expedition fleet with the recent arrival of the gorgeous *Silver Origin*, which sails in the Galápagos Islands year-round. The cruise line sails to both polar regions and just about everywhere in between.

The much-loved *Silver Cloud* and *Silver Wind* have undergone extensive refurbishment in recent years. They now boast ice-hulls and new engines, and sail to the Arctic and Antarctic. Making their way north and south each year, traveling along stunning shores, they call on ports in South America, Greenland, and other destinations closer to home. Each carries several nimble Zodiacs, ideal for fascinating explorations in regions that invite you to push boundaries and navigate new routes.

The intimate *Silver Explorer* sails to Africa, Australia, New Zealand, and Pacific shores as she makes her way around the globe. Enjoy equatorial rain forests, the riches of down-under, and perhaps even a safari as you globetrot on this charming, small expedition vessel.

Perhaps it's the thrill of the unknown that beckons. Snorkel with sea lions, tropical

penguins, and sea turtles, or marvel at the antics of the blue-footed boobies, which abound on some of the Galápagos Islands. Or, if you're a wildlife lover, you will be thrilled at the prospect of getting "up-close and personal" with land and marine mammals.

As we travel afar, our minds become more curious, our spirit of adventure ignites, and our connection to the world becomes more profound than ever.

As you become a world explorer with Silversea Cruises, you will do so in ultimate style and comfort. Silversea has been operating luxury expedition cruises for over a decade, pioneering the use of luxury ships with all-suite accommodations, complete with a butler's attentive services and an inclusive onboard lifestyle. Enjoy premium fine wines, liquor, and Champagne as well as included Wi-Fi and gratuities along with a selection of shore excursions tailored to every destination. ■

ANTARCTICA BRIDGE: FLY AND CRUISE

A new, unique program, dubbed Antarctica Bridge, is now available for *Silver Explorer* cruises. Guests can fly directly from Punta Arenas, Chile, to the icy continent without having to cross the Drake Channel. The private plane flights offer business-class travel and save you a total of four days at sea. Pre-and post-hotel accommodations as well as a Bon Voyage dinner are included, and Silversea staff accompany guests on the journey to ensure you have a wonderful experience at all times.
